M'Bliki as she was found in Africa.

Health testing and history: PPM & cloboma clear, HA clear, OFA BJ-80G61F (HD good).

Date of Death: July 26, 2003 Cause of Death:

Comments: Delightful outgoing personality. M'Bliki is intelligent, biddable and adaptable. She is a little long in loin and her tail is a loose curl. Her shoulders are very well laid back and the line from neck through her shoulders is particularly nice. She retired with 7 AKC points.

Comments: Males: [Avongara Kweli](#), [Avongara Bahati Nasibu](#) (Br/W), [Avongara Bote, CDX](#) (Br/W), [Avongara Donner, CD](#) (Br/W), [Avongara Blixen of Clayridge](#) (Br/W) and [Avongara Rudi](#) (R/W). Brindle pups went from a very dark brindle to moderate brindle. They have good shoulder layback but tended to be quite long in back. Tails could have been curlier. All these males except Blixen have produced pups.

July 26, 1991 - 3 red and white males and 1 red and white and 1 brindle and white females - Breeder: Damara Bolte' - HM361990

Comment: Males: **Reveille Calypso Trapper** (R/W 04 OFA-Hips: Good, CERF (96, 01)), **Reveille Trader** (R/W 03) and **Reveille Hunter** (R/W 05) - Females: **Reveille Savannah at Kazor** (R/W 02 OFA-Hips: Good, CERF (97)) and **Reveille Zaireoise** (Br/W 01 OFA-Excellent, CERF (95)). Zaireoise is very similar to M'Bliki in appearance and personality. Good shoulder layback and rear angulation, she is a bit long and dippy in back, down somewhat in pastern. She has a wonderful temperament. Both Savannah and Zaireoise have champion offspring. All but Hunter were bred from. Per Trapper's owner: "Outgoing & friendly. Good judge of character. Excellent health, does not look his age (13). Strong teeth, never a problem with tartar." Has produced undershot bite.
