Evaluations

AKC Approved Judge – P. Levi Marsman 11-2-08

Movement excellent, over all type quite consistent to the standard. It is definitely a Basenji. Tail could be a little tighter but is typical for the African dogs. Could compete in the show ring with a little difference than American dogs.

Rating 4 Very Good

AKC Approved Basenji Breeder Judge – Marianne Klinkowski 10-09-08

This striking red Basenji dog has a wonderful front with a lovely line of neck into shoulder. His upper arm and shoulder blade are long and of equal length and he has a strong rear with a long second thigh and short hocks. He moves out easily with a ground-covering stride and is absolutely sound coming & going.

He has clean, fine bone, a level topline, a short red coat, pliant skin and his tail is loosely curled. His proportions are off square, however the length of his body is in his ribcage with a relatively short loin.

His masculine head has a pleasing expression with dark, almond eyes, excellent pigment, small mobile ears and nice wrinkle. He has a perfect scissors bite with large strong teeth. In my opinion, this is every inch a Basenji.

Rating 4 Very Good

Long-Time Breeder – Kim Byrd 9-19-08

Alfie is obviously a Basenji. He has a lovely topline, rear & front assembly. His eyes are almond shaped & his pigment is very dark. He's a smooth moving dog & has nice upstanding oval feet. Coat color is a nice red.

I'd like to see him be more sure of himself around people when they need to touch him, i.e., on the table.

Alfie works very well one on one with his owner and shows his extreme intelligence by obedience talent and controlling his environment. I would like to see a smaller ear & a smaller sized dog but overall very nice.

Rating 4 Very Good
