Cause of Death:

Comments: Clever, very independent and self-confident, strong-willed, stubborn, curious dog. Very good temperament with humans. Tries to be a leader among other dogs. Sporty, loves to run. Very strong hunting instinct. Rather tall - 43cm (16.92 inches). On the whole corresponds to the standard. The coat is rather wiry and long although at first it was short and smooth. It changed when she was about two years old, probably due to climate.

Litters produced: none
